

Multi-function Desktop Phones

DT500 - DT900 Business Phones

Phones to suit your business needs

With NEC's innovative desktop telephones, you can increase feature functionality through applications support and personalisation of each phone. NEC telephones allow you to choose from a wide assortment that best fits your needs. Whether your business communications are pure IP or any combination of IP and digital.

Multicolour MWI Lamp

7-Colour customisable message-waiting indicator.

Adjustable Stand

5 adjustments and built-in wall mount.

Directories

Quickly look up contacts in the directory by using the alphabetic keypad.

Security

TLS and SRTP security encryption technology to protect calls and accounts.

Intuitive and Interactive Navigation

All models offer intuitive and interactive navigation of the NEC expert communication features.

Flexibility with Add-on Modules

Add functions and direct-dial buttons. 8 and 60 line key add-ons, turn your phone into a switchboard.

Hot-desking

Simply log in to a free phone to make and receive calls.

HD Audio Quality

Both speakerphone and handset offer super wideband technology for superior HD audio quality.

High Quality Handset

The slimline handset increases the conversation comfort.

Built-in PoE

To power the device and give it a network connection.

Which phone will work for you?

With the range of NEC Desktop Telephones within arm's reach, all you need to do to get started is choose how you want to deploy your phones - IP or digital. Once you know which phone you want, you can begin your customisation journey.

Select from 6 to 32 keys, self-labelling, greyscale or colour displays. Extend your phone's capabilities with 8 or 60 button add-on modules, customisable function keys can be adapted to your or your business's requirements. The user-friendly interfaces require little or no staff training and all our phones come standard with features for the visually impaired such as audio key feedback and large character display.

The range of NEC IP and Digital Desktop Telephones will meet all your technology needs. Gigabit support eliminates the need of having to buy additional adapters and conveniently, the inbuilt switch allows you to use your phone and PC from the one LAN point. You also have the ability to extend your phones capabilities with NEC's open XML interface.
